

When I return to Dance class at the studio, I know some things will be the same and some things will be different.

How to be COVID Safe at dancing

Stay home if you are sick

Listen Carefully

Follow all instructions. Miss Alice, Mrs H & all the teachers will help you with the new rules

Ensure Social Distancing

We have to stay 1.5 metres apart as much as possible

Wear a Mask

If you are over the age of 13 years

Practice good hygiene

Use the hand sanitiser when you arrive and leave and wash your hands regularly

Arrive with your dance uniform on and your hair done.

Your parents cannot come inside with you and will drop you off outside.

We can't dance with as many props, or equipment. Anything we use will be cleaned between uses.

My teacher will make sure the dance studio is clean for me.

Make sure you collect all belongings before you leave. We cannot keep your lost property.

I can stay healthy and keep my friends healthy by:

Washing my hands before I come to dance and when I get home.

I will try not to touch my face or put my hands in my mouth.

I cannot hug or touch my friends for now, but I can give them a big smile & talk to them.

If I need to sneeze or cough I will do it into my elbow.

If I feel sick I will stay at home and come back to dance when I feel much better.

Be kind to each other and enjoy the chance to dance together again.
